## **DETAILED ACTION**

### ***Miscellaneous***

1. Please note that the examiner of record has changed.

### ***Response to Amendment***

1. This action is responsive to an Amendment filed 8/01/2006. Claims **1-41, 44-46, 49, 50** are pending. Claims **1-13, 15-27, 29-33, 35, 36, 38, 39, 41, 44, 46, 50** are amended. Claims **42, 43, 47, 48** are canceled.

### ***Response to Arguments***

1. Applicant's arguments regarding claims **1-41, 44-46, 49, and 50**, filed 8/01/2006, have been fully considered, but they are not persuasive in view of the statements below regarding Applicant's claim of priority.

### ***Priority***

1. Applicant's claim for the benefit of a prior-filed application under 35 U.S.C. 119(e) or under 35 U.S.C. 120, 121, or 365(c) is acknowledged; however, Applicant has not complied with one or more conditions for receiving the benefit of an earlier filing date under 35 U.S.C. 120 as follows:

This application is claiming the benefit of nonprovisional application No. 11/154,248, filed June 16, 2005 under 35 U.S.C. 120; however, 37 CFR § 1.78 (a)(1) states:

“A nonprovisional application or international application designating the United States of America may claim an invention disclosed in one or more *prior-filed* copending nonprovisional applications or international applications designating the United States of America...” (italicized for emphasis).

The examiner notes that the subject application, Application No. 10/037,005, was filed on 12/21/2001. Therefore, Application No. 11/154,248, filed 6/16/2005, is not a prior-filed nonprovisional application of which the applicant can claim benefit. As such, the examiner does not grant benefit to the application and addresses the claims in the Office Action below based on the 12/21/2001 filing date of the subject application.

Furthermore, the examiner notes that the benefit claim is not timely. As stated in 37 CFR § 1.78 (a)(2)(ii):

“... reference must also be submitted within the later of four months from the actual filing date of the later-filed application or sixteen months from the filing date of the prior-filed application.”

As indicated by the examiner above, the benefit claim is not to a prior-filed application. Even if it was; however, benefit must be claimed within sixteen months from the filing date of the prior-filed application or within four months from the filing date of the subject application, both of which have expired.

### *Specification*

1. The disclosure is objected to because of the following informalities:

Art Unit: 2623

The amendment filed 8/01/2006 is objected to under 35 U.S.C. 132(a), because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material, which is not supported by the original disclosure is as follows:

“This application relates to Attorney Docket No. 36968-265386 (BS01341), filed by Matz et al. on December 14, 2001, entitled ‘System and Method for Utilizing Television Viewing Patterns,’ which is incorporated herein by reference. This application also relates to Attorney Docket No. 36968-265387 (BS01342) filed by Matz et al. on December 14, 2001, entitled ‘System and Method for Identifying Desirable Subscribers,’ which is incorporated herein by reference. This application also relates to U.S. Application Serial No. 09/496825, filed February 1, 2000, which is incorporated herein by reference.”

Applicant is required to cancel the new matter in the reply to this Office Action.

Appropriate correction is required.

***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

2. Claims **49** and **50** are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 2623

Referring to claims **49** and **50**, the examiner notes that both claims 49 and 50 depend from cancelled claim 47. The examiner recommends that the claims be changed to depend from claim 46. The examiner addresses the claims in the Office Action below as though the recommended changes have been made.
